## Coercive COVID-19 vaccination...people in distress...

---

Elizabeth Hart <elizmhart@gmail.com>  
To: Elizabeth Hart <elizmhart@gmail.com>

Wed, Oct 20, 2021 at 5:36 PM

I'm being contacted by people in distress at being coerced to submit to COVID-19 injections to maintain their employment.

In this regard, **please see below an email thread including emails to Martin Fletcher, CEO of the Australian Health Practitioner Regulation Agency (AHPRA), and Lesley Dwyer, Chief Executive Officer, Central Adelaide Local Health Network.**

We really are in incredible times here in Australia, Australians' right to bodily autonomy is being trashed by the grossly disproportionate and ill-targeted response to COVID-19.

Elizabeth Hart

Subject: 'Informed consent', 'voluntary healthcare decisions' and coercive vaccination...

To: <Jamie.Pearce@ahpra.gov.au>

Cc: <Amanda.Watson@ahpra.gov.au>, <racgp@racgp.org.au>, <racp@racp.edu.au>, <president@ama.com.au>, Emma McArthur <ejminoz@gmail.com>

**Please forward this email to the people addressed below:**

**For the attention of:**

Mr Martin Fletcher, CEO  
Australian Health Practitioner Regulation Agency (AHPRA)

Copied to:

- Dr Anne Tonkin, Chair, Medical Board of Australia
- Ms Gill Callister PSM, AHPRA Agency Management Committee
- Dr Karen Price, President, Royal Australian College of General Practitioners (RACGP)
- Professor John Wilson AM, President, Royal Australasian College of Physicians (RACP)
- Dr Omar Khorshid, President, Australian Medical Association (AMA)

Mr Fletcher, please see below my email to Lesley Dwyer, Chief Executive Officer, Central Adelaide Local Health Network, **re the distress being caused to CALHN employees by the edict coercing them to have COVID-19 to maintain their employment.** Obviously these employees are being cornered by this demand, and so cannot give authentic informed consent in these circumstances, **they are submitting to COVID-19 vaccination under duress.**

It's on the record this matter has been brought to your attention.

Sincerely

Elizabeth Hart

**Independent person investigating the over-use of vaccine products and conflicts of interest in vaccination policy**

**For the attention of:**

Lesley Dwyer  
Chief Executive Officer

Lesley Dwyer, I'm being contacted by employees of CALHN who are most distressed they are being coerced to submit to COVID-19 injections to maintain their employment, as dictated in your email to staff dated 13 October 2021.

I've forwarded your email to Martin Fletcher, CEO of the Australian Health Practitioner Regulation Agency (AHPRA), as an example of people being coerced into submitting to COVID-19 injections, and therefore **not** giving authentic informed consent to these medical interventions, i.e. **not** making a "voluntary decision about health care that is made with knowledge and understanding of the benefits and risks involved".

See below my email to Martin Fletcher in which I warn Mr Fletcher that this is a crisis - and the APVMA, Medical Boards, RACGP, RACP, AMA and other medical organisations must address the failure to obtain authentic informed consent before COVID-19 injections, without coercion, much damage has already been done.

**My email below is also accessible via this link, this is a matter of public interest:** <https://bit.ly/3aFEN9q>

Sincerely

Elizabeth Hart

**Please forward this email to the people addressed below:**

**For the attention of:**

Mr Martin Fletcher, CEO

Australian Health Practitioner Regulation Agency (AHPRA)

Copied to:

- Dr Anne Tonkin, Chair, Medical Board of Australia
- Ms Gill Callister PSM, AHPRA Agency Management Committee
- Dr Karen Price, President, Royal Australian College of General Practitioners (RACGP)
- Professor John Wilson AM, President, Royal Australasian College of Physicians (RACP)
- Dr Omar Khorshid, President, Australian Medical Association (AMA)

Mr Fletcher, in regards to COVID-19 vaccination, Amanda Watson has confirmed that:

**"Practitioners have an obligation to obtain informed consent for treatment, including vaccination. Informed consent is a person's voluntary decision about health care that is made with knowledge and understanding of the benefits and risks involved."** (Copy of letter from AHPRA attached.)

As I've highlighted in previous correspondence (see email list below), there is a conflict in the Morrison and State Governments' COVID-19 vaccination rollout and the obtaining of informed consent before vaccination, as people are being **coerced** to submit to COVID-19 injections - this means people are **not** making an authentic **"voluntary decision about health care that is made with knowledge and understanding of the benefits and risks involved"**.

A recent example of this is an email to workers in healthcare settings from Lesley Dwyer, Chief Executive Officer, Central Adelaide Local Health Network, **requiring that people currently working in a healthcare setting must have COVID-19 vaccination**, as authorised by Grantley Stevens, SA Police Commissioner and State Coordinator COVID-19 Emergency Response, see copy of letter attached.

This is just the tip of the iceberg, with governments across Australia mandating COVID-19 injections for an ever-increasing list of workers, e.g. the Victoria State Government, NSW Government, Northern Territory Government, etc.

Mr Fletcher, as I've already outlined in my previous correspondence, COVID-19 is unlikely to be a serious threat to most people, **so why is the entire Australian population aged 12 years and over being pressed to have the COVID-19 injections**, which apparently do not prevent infection nor transmission, and provide unknown duration of 'immunity', **potentially interfering with individuals' own effective natural immune response?**

**This must be clarified now, i.e. what are the 'sources of information' backing this coercive COVID-19 vaccination of the Australian population?** Presumably GPs and other vaccination providers are using ATAGI recommendations, i.e. Australian Technical Advisory Group on Immunisation (ATAGI) Clinical guidance on use of COVID-19 vaccine in Australia in 2021 (v.7.3) - is this correct?

I'm going to examine the ATAGI clinical guidance but, in the meantime, **I'm putting it on the record with AHPRA that those practitioners who are injecting people who are reluctantly submitting to COVID-19 injections to maintain their employment, are not properly obtaining informed consent from their patients, i.e. these practitioners are likely to know that these people are being coerced to submit to COVID-19 injections, and are not truly making a "voluntary decision about health care that is made with knowledge and understanding of the benefits and risks involved".**

This lack of authentic 'informed consent' may have very serious repercussions in future, for the individual practitioners, and also for the reputation of the healthcare profession.

**This is a crisis Mr Fletcher...the APVMA, Medical Boards, RACGP, RACP, AMA and other medical organisations must address the failure to obtain authentic informed consent before COVID-19 injections, without coercion, much damage has already been done.**

**I request your urgent response on this matter.**

See my previous emails to AHPRA:

[Covid-19 injections and 'informed consent'](#) 10 September 2021
