
Covid-19 jab mandates overriding 'valid voluntary consent' - email to the President of the Royal Australian College of General Practitioners

Elizabeth Hart <elizmhart@gmail.com>
To: Elizabeth Hart <elizmhart@gmail.com>

Tue, Mar 1, 2022 at 3:35 PM

Billions of Covid-19 jabs have been pressed upon people around the world.

Have people given valid voluntary consent before these jabs?

I suggest they have not, because no-one has been properly informed about these fast-tracked experimental Covid jabs which do not prevent infection nor transmission.

It's stunning really...this is an unprecedented event in human history...never before has an experimental medical intervention been pressed upon so many people so quickly...

Where were the doctors? How have they let this happen, with millions and millions of people pressed to have these Covid jabs, who were never at serious risk of Covid? With a few notable exceptions, the doctors have been complicit in facilitating this experiment.

Now Australia is one of the most heavily Covid jabbed countries in the world, **with millions coerced and manipulated to submit to these jabs under mandates to maintain their livelihoods and to participate in civil society.**

The future is unknown, this is an experiment in progress, to which no-one has given authentic consent. Children are the most compromised by this experiment, they were never at risk of Covid-19 - but what does the future hold for them, with so many now jabbed? What has been done to their natural immune response by these medical interventions they didn't need?

Please see below my email to Karen Price, the President of the Royal Australian College of General Practitioners, questioning doctors' and other health practitioners' role in the Morrison Government's Covid-19 jab rollout, and the failure to obtain valid voluntary consent. My email to Karen Price includes my email to Australian prime minister Scott Morrison, providing more background on this debacle.

We are living in the biggest scandal in history.

Subject: Covid-19 jab mandates overriding 'valid voluntary consent' - email to the President of the Royal Australian College of General Practitioners

To: racgp

Cc: racp, president@ama, Jamie.Pearce@ahpra, Amanda.Watson@ahpra, libadm@liberal, media@liberal, Gerard Rennick, Andrew Laming, George Christensen, Pauline Hanson, Malcolm Roberts, Matt Canavan, Mark Latham, Tanya Davies, Nathaniel Smith, Anthony Roberts, Kevin Conolly, Fred Nile, Rex Patrick, Tim Quilty, Neil Angus, David Limbrick, Tony Pasin, Steph Ryan, Concetta Fierravanti-Wells, Sam McMahon, Craig Kelly, Alex Antic, Bob Katter, Augusto Zimmermann, George Williams, James Allan, Rocco Loiacono, Emma McArthur, Nick Hudson, Peter A. McCullough, Greg Hunt, Mark Butler, Anthony Albanese, Chris Kenny, Peta Credlin, Rowan Dean, Janet Albrechtsen, <letters@theaustralian.com.au>, Leigh Sales, David Anderson

Please forward this email to the people addressed below:

For the attention of:

Karen Price, President, Royal Australian College of General Practitioners (RACGP)

Copied to:

- John Wilson, President, Royal Australasian College of Physicians (RACP)
- Omar Khorshid, President, Australian Medical Association (AMA)
- Martin Fletcher, CEO, Australian Health Practitioner Regulation Agency (AHPRA)
- Anne Tonkin, Chair, Medical Board of Australia
- Gill Callister, AHPRA Agency Management Committee

Karen Price, please see below my email to prime minister Scott Morrison, arguing that **no-one in Australia has given valid voluntary consent to the Covid-19 jabs, because no-one has been properly informed about the fast-tracked experimental Covid-19 'leaky vaccines'**, which don't prevent infection nor transmission, and which purportedly provide dubious 'protection' of very limited duration, against a disease it was known from the beginning wasn't a serious threat to most people.

Karen Price, can you please clarify, **how are general practitioners obtaining valid voluntary consent from people, including children's parents, before administration of the Covid-19 jabs**, i.e. in accordance with the criteria for valid consent as laid out in *The Australian Immunisation Handbook*, e.g. **"It must be given voluntarily in the absence of undue pressure, coercion or manipulation"** and **"It can only be given after the potential risks and benefits of the relevant vaccine, the risks of not having it, and any alternative options have been explained to the person"**?

I've raised **this matter** previously with you and others copied on this email, including representatives of AHPRA, i.e. that **the Morrison Government's Covid-19 jab rollout to mass populations places registered health practitioners - including doctors, nurses and pharmacists etc - in a conflicted position in regards to properly obtaining valid voluntary consent before this medical intervention.**

AHPRA has subsequently confirmed to me that **"Practitioners have an obligation to obtain informed consent for treatment, including vaccination. Informed consent is a person's voluntary decision about health care that is made with knowledge and understanding of the benefits and risks involved."** (Letter dated 20 September 2021, see [copy attached](#).)

Health practitioners' conflicted position with the Morrison Government's mass population Covid-19 jab rollout **has been hugely exacerbated by Covid-19 jab mandates being imposed by state and territory governments, and businesses and employers such as News Corp Australia, BHP, Qantas, SPC, Westpac, CBA, Suncorp, Coles, Woolworths, Aldi and media Channels Nine, Seven and Ten, etc. People are being forced to submit to these mandates to maintain their livelihoods.** Other organisations such as theatres, hospitality, sports arenas, football and golf clubs etc are also imposing mandates coercing and manipulating people to submit to Covid-19 jabs to access services. **Critical thinking people who refuse to submit to these highly questionable medical interventions, based on their own evaluation of the risks in regards to their own age and health status, are effectively being punished and cancelled out of civil society for exercising bodily autonomy. This is grossly unjust and unethical.**

On what scientific and medical evidence are Covid-19 jab mandates being imposed - do you know the answer to this question Karen Price? It's notable that then co-chair of the Australian Technical Advisory Group on Immunisation (ATAGI) Chris Blyth has said **"Atagi has not provided a recommendation for mandates at any time point"**, as reported in the *Guardian* on 8 December 2021.

Karen Price, **has the RACGP raised this glaring anomaly with the Morrison Government, and state and territory governments and others imposing mandates? How can health practitioners obtain valid voluntary consent from people who are being coerced and manipulated into submitting to Covid-19 jabs under mandates?**

Again, please see below my email to Scott Morrison for further background.

I request acknowledgement of receipt of this email and your urgent response on this matter.

Subject: Scott Morrison "a hypocrite and a liar" - informed consent and the Covid-19 jab rollout

To: Scott Morrison

Cc: Gerard Rennick, Andrew Laming, George Christensen, Pauline Hanson, Malcolm Roberts, Matt Canavan, Mark Latham, Tanya Davies, Nathaniel Smith, Anthony Roberts, Kevin Conolly, Fred Nile, Rex Patrick, Tim Quilty, Neil Angus, David Limbrick, Tony Pasin, Steph Ryan, Concetta Fierravanti-Wells, Sam McMahon, Craig Kelly, Alex Antic, Bob Katter, Augusto Zimmermann, George Williams, James Allan, Rocco Loiacono, Emma McArthur, Nick Hudson, Peter A. McCullough, Greg Hunt, Mark Butler, Anthony Albanese, Chris Kenny, Peta Credlin, Rowan Dean, Janet Albrechtsen, letters@theaustralian.com.au, Leigh Sales

For the attention of:

Scott Morrison

Liberal Party of Australia

Scott Morrison, you've been described as "a hypocrite and a liar".[1]

This is an apt description, certainly in regards to your handling of the Covid-19 jab rollout, and your duplicity in promoting mandatory vaccination[2], while also saying "it will not be compulsory to have a Covid-19 vaccine".[3]

Despite alarming reports of 'vaccine failure' around the world, with purported 'protection' waning within months[4], and many adverse events being reported[5], the Covid-19 jabs continue to be pressed upon Australians. According to the Department of Health, 93.8% of Australians over 16 years have now been jabbed[6], with millions manipulated and coerced into submitting to the 'leaky vaccines' that don't prevent infection nor transmission, under state government and business mandates. **Worst of all, children from five years old are being subjected to the defective jabs, against a disease which is of no threat to them.[7]** Why is the natural immune response of children and others being sacrificed? **Meanwhile, those critical thinking people who refuse to have the obviously defective jabs are discriminated against in an apartheid society.**

I suggest no-one in this country has given valid voluntary consent to this medical intervention, because no-one has been properly informed about the fast-tracked experimental Covid-19 'leaky vaccines', which have been 'provisionally' approved by the TGA based on manufacturers' data,[8] provided by criminal companies such as Pfizer and AstraZeneca which have previously been fined billions of dollars for malfeasance.[9] Millions of Australians have been press-ganged into participating in what Health Minister Greg Hunt has described as **"the largest global vaccination trial ever"**. [10] But Australians weren't properly informed they were participating in a 'vaccination trial' - **who has given their consent to participate in this trial, in accordance with the ethical principles of the Helsinki Declaration?**[11]

The medical 'profession' has allowed this to happen, injecting people who they know have been coerced and manipulated to comply under mandates. They are a party to this disaster you've orchestrated Scott Morrison, along with the web of state premiers, chief medical/health officers, health ministers, police commissioners and others who have participated in this gross exploitation of the Australian people. **This 'public health terrorism' has been undertaken with the support of the mainstream/corporate media propaganda machine, funded by the taxpayer via your government.**[12]

For two years people around the world have been subjected to fear-mongering and gross misinformation from traitorous governments. In her book *State of Fear*, Laura Dodsworth describes how the Boris Johnson / UK government weaponised fear in response to Covid-19. Recently Denmark's leading tabloid *Ekstra Bladet* has admitted the media's failure to hold governments to account for Covid-19 information, e.g. whether people were hospitalised 'with' coronavirus or 'because of' coronavirus.[13]

Why has there been such a determination to beat up coronavirus 'cases' and deaths around the world? It seems the intention was to impose a global 'vaccine solution', regardless of the actual risk of the virus. **Certainly there is much retrospective critical analysis to be done now to investigate and expose the real motives behind the hysterical Covid-19 response.** The Boris Johnson / UK government was a key player in initiating the Covid-19 vaccine response, and this must be examined now. In this regard see my emails to Graham Brady, Chair of the 1922 Committee of the UK Conservative Party: **The treacherous Covid-19 response - calling on the 1922 Committee for justice**, 31 December 2021; and **Were 'leaky vaccines' deliberately spread round the world?** 11 January 2022.

Scott Morrison, in an interview with Neil Mitchell on 3AW in August 2020, you said your government hadn't yet decided whether COVID-19 vaccination would be compulsory, with you saying you "would expect it to be as mandatory as you can possibly make it".[14]

Just a few hours later you made a U-turn on your mandatory comment, saying **"It's not going to be compulsory to have the vaccine"**. [15]

Probably much to your disappointment, it seems the Federal Government doesn't have clear authority to mandate compulsory Covid-19 vaccines, with Paula O'Brien, Director of the Health Law and Ethics Network at Melbourne Law School suggesting there were currently no laws that specifically support a population-wide mandate for vaccines, and that states and territories may have the necessary powers to impose compulsory vaccination.[16]

You have your original wish Scott Morrison, with the state and territory governments and businesses now imposing a variety of vaccination mandates, despite the fact you personally assured me in October 2020 **"Vaccination is not compulsory in Australia and it will not be compulsory to have a COVID-19 vaccine."**[17]

If you were sincerely against compulsory vaccination, why did you not introduce a bill into the Federal Parliament prohibiting the states and territories from implementing Covid-19 vaccine mandates? For example under the Australian Constitution's External Affairs or Pharmaceutical Benefits powers, sections 51xxix and 51xxiiiA respectively.

Millions of Australians are being made to succumb to the jobs under 'No Jab, No Job' - and for many No Jab, No Sport; No Jab, No Restaurant; No Jab, No Life is also becoming the norm, in this increasingly repressive country which is notorious around the world. Covid-19 job mandates of varying range have been imposed under state premiers Daniel Andrews, Mark McGowan, Anastacia Palaszczuk, Dominic Perrottet/Gladys Berejiklian, Steven Marshall, and territory chief ministers Michael Gunner and Andrew Barr. It seems these politicians are relishing the opportunity to discriminate against the more discerning 'job-free' Australians, creating an apartheid[18] with the apparent aim to cancel these critical thinking people out of an authoritarian society being built upon unquestioning compliance and submission in Australia.

Businesses have also come to the party to do your dirty work Scott Morrison, led by News Corp Australasia's boss Michael Miller, who called upon business leaders and owners to champion the vaccination rollout, without disclosing a serious conflict of interest, i.e. that News Corp Australia is a corporate partner with the Murdoch Children's Research Institute, which is involved in vaccine research and development, including Covid-19 vaccine research with the Doherty Institute, i.e. the industry-sponsored VAX4COVID Australian Covid Vaccine Trials Alliance.[19] Companies such as BHP, Qantas, SPC, Westpac, CBA, Suncorp, Coles, Woolworths and Aldi and others, plus media channels Nine, Seven and Ten, are mandating Covid-19 jobs for their staff. Businesses are being supported with the taxpayer-funded Covid-19 resources of the Morrison government.[20] Unions too have largely promoted the Morrison government's Covid-19 job rollout, with not much support evident for workers to make their own informed decision about this medical intervention.[21]

What is the scientific and medical evidence backing the state government and business mandates? It's notable that then ATAGI co-chair Chris Blyth has publicly confirmed **"Atagi has not provided a recommendation for mandates at any time point"**. [22] What is the basis for the state government and business mandates, on what authority are they coercing and manipulating Australians to submit to the failing Covid-19 'leaky vaccines' that don't prevent infection nor transmission, and denying them a truly voluntary decision about these medical interventions, considering the risks and benefits in their individual case?

There is a massive conflict with the Morrison and state governments' Covid-19 job rollout and the obtaining of informed consent before the Covid-19 jobs, as millions of Australians are being coerced and manipulated into submitting to the Covid-19 injections and therefore are not making an authentic voluntary decision about this medical intervention.

According to *The Australian Immunisation Handbook*: **"For consent to be legally valid, the following elements must be present...It must be given voluntarily in the absence of undue pressure, coercion or manipulation...It can only be given after the potential risks and benefits of the relevant vaccine, the risks of not having it, and any alternative options have been explained to the person."**[23]

In response to **my persistent enquiries** about health practitioners' duty to obtain informed consent, the regulator of health practitioners, AHPRA, has confirmed to me: **"Practitioners have an obligation to obtain informed consent for treatment, including vaccination. Informed consent is a person's voluntary decision about health care that is made with knowledge and understanding of the benefits and risks involved."** (Copy of letter from AHPRA attached.)

Operation COVID Shield now acknowledges there is a problem with consent in its factsheet: **Handling consent refusal by people presenting for vaccination** This demonstrates the problem when a person who has been mandated to receive a vaccination, but is not willing to provide consent to an administering health practitioner. This factsheet clearly states **"If a patient has not provided informed consent, you *should not* vaccinate them, even if they are mandated to receive a COVID-19 vaccination to perform particular roles or enter certain settings."** How many people have genuinely given informed consent before Covid-19 jobs? I strongly suspect a valid informed consent process is not happening in most cases

Scott Morrison, in July 2021, you publicly supported the principle of informed consent[24], i.e. you said: **"...we're all responsible for our own health. And, when it comes to informed consent and getting consent to whatever treatment or procedure you may have or I may have, then I'm ultimately responsible for what people do in their health treatment to me..."**

You said: **"That's the sort of country we live in. People make their own decisions about their own health and their own bodies. That's why we don't have mandatory vaccination in relation to the general population here, because people make their own decisions and we encourage people to make those decisions."**

No Scott Morrison, it's not the 'sort of country we live in'...you and your political colleagues in National Cabinet have betrayed and destroyed this country - ruining the economy with the grossly disproportionate and ill-targeted Covid-19 response; dividing Australians with border closures, prohibiting free movement around Australia; deliberately fear-mongering and misinforming Australians about 'the virus' and the 'leaky vaccines'; fostering division in families, friends and the community; and encouraging discrimination and segregation against those critical thinking Australians unable to give their informed consent to the obviously defective jobs.

So much for your comment **"...we don't have mandatory vaccination in relation to the general population"** - who qualifies as 'general population' now, with millions of Australians being coercively and manipulatively jabbed under

state government and business mandates?

You've stood by while state governments and businesses have imposed Covid-19 jab mandates affecting millions of people in Australia, people who've been coerced and manipulated into submitting to Covid-19 jabs to maintain their livelihoods, and also being lined up for future 'booster' shots. The 'leaky vaccines' failed within months, with 'boosters' now being suggested to be 'fully vaccinated', and a fourth shot in the offing.[25] **How many people were properly informed about the 'leaky vaccines', including that they were being lined up for multiple 'boosters' in future, i.e. the 280 million jabs you've 'secured' courtesy of the taxpayer for Australia's population of 26 million, more than 10 shots for every adult and child in Australia?**[26]

The Department of Health reports 93.8% of people aged 16 and over are 'fully vaccinated' (presumably two doses) in Australia. 77.46% of children aged 12-15 years have had two doses. 45.97% of children 5-11-years have had one dose in the recently commenced rollout for 5-11-year-olds.[27] **Why are all these millions of Australians being jabbed with the Covid-19 injections that don't prevent infection nor transmission?** This does not make sense. It was known from the beginning that Covid-19 wasn't a serious risk for most people, with the WHO acknowledging **"Most people infected with the virus will experience mild to moderate respiratory illness and recover without requiring special treatment"**. [28] A response I received from the Department of Health in early 2020 admitted **"COVID-19 presents as a mild illness in the majority of cases"**. Some people may become seriously ill with Covid-19 and the Covid-19 jabs are touted to decrease hospitalisation and death - **but most people weren't at risk of becoming seriously ill with Covid-19 or hospitalisation and death, so why weren't efforts focussed on protecting the vulnerable, rather than subjecting mass populations to defective injections they didn't need?**

The manipulation of the Covid-19 response can be fairly described as treason against the people, who are being set up to be exploited with defective Covid-19 jabs over and over again. Who is the main beneficiary of these lucrative medical interventions, the manufacturers of which have been protected from liability in shady deals? See for example: **Pfizer has power to 'silence' governments and 'maximise profits', consumer group alleges**. ABC News, 20 October 2021. **Certainly the pharmaceutical industry appears to be doing very well out of supplying defective jabs - what a business model! It doesn't work, so buy another one...over and over again! Are you now forcing Australians to take multiple Covid jabs because you've committed to deals with the manufacturers worth billions of dollars?**[29]

Pharmaceutical companies have exerted enormous power over the Covid-19 response, see for example: **Putting big pharma in charge of global vaccine rollout was a big mistake**, *The Guardian*, 9 February 2022. **The really big mistake was rushing ahead with a global vaccine solution against a virus it was known from the beginning wasn't a serious threat to most people...this has to be tracked back now - how did this happen?**

Scott Morrison, you and your cronies helped create the perfect market for the jab manufacturers, when you called the pandemic before the WHO[30], **threw out Australia's pandemic plan**, closed Australia's international border and imprisoned most Australians[31], using **the Doherty modelling**, based on the infamous **Ferguson modelling**, to capture Australians for 'the vaccine', not to be released until all succumbed to your 'vaccine solution'.

Again Scott Morrison, you are a hypocrite and a liar. You said there would be no compulsory vaccination, and that "people make their own decisions about their own health and their own bodies". This is manifestly untrue now, with millions of Australians coerced and manipulated into submitting to the jabs.

The failure to ensure voluntary informed consent before the defective Covid-19 'leaky vaccines' is a massive ethical failure of your government, state and territory governments, businesses, the medical 'profession' and others who have facilitated this injustice against the Australian people, tricking and misleading them into submitting to these highly questionable repeated medical interventions, with who knows what future consequences.

I sincerely hope you will be brought to account for this grievous crime.

Elizabeth Hart
